

Preliminary Examination Results Report

Student: Shannon Moran Date: 02/21/18

Committee's Rating of Written Proposal and Oral Presentation:

EXC VG X GOOD FAIR POOR

Note: A rating of Good signifies a proposal and presentation that just meets minimum standards and is the lowest possible passing score.

Comments to explain the basis for the rating above (*these will be shared with the student*):

good work. Perhaps define project
2 a bit better

One-page Project Summary included:

Yes X No

Signatures of Committee Members:

DSC member or representative

In evaluating the preliminary examination, the primary criterion will be the applicant's apparent ability to plan and conduct high-quality, PhD-level research in chemical engineering, as measured by the scholarly and technical breadth and depth displayed in the examination.

DSC member or representative:

Return to Susan Hamlin, or email (hamlins) immediately after the exam.
